

# RTP Compliance Report

Audited Period | Q4 2024

May 6, 2025 | ATech\_KGC\_BPP\_Q424

BLUE PEPPER B.V

ASENSI

TECHNOLOGIES

**Operator:** Blue Pepper B.V.

**Audited Period:** Q4 / 2024

**Websites:** <https://www.hepsibahisx.com> | <https://www.mroyun.com/> | <https://www.bahibi.com/>

## RTP Analysis and Control Compliance Certification

This report is based on the independent analysis of the game transactions recorded by the systems of Blue Pepper B.V. for the fourth quarter of 2024. The audit has been carried out in accordance with the regulations set by the **Kahnawake Gaming Commission (KGC)**.

### Observed RTP for the different Game Types and All Providers combined

Game Type	Observed RTP
Blackjack	96,49%
Other games	98,97%
Roulette	97,13%
Slot	94,19%
Poker	94,04%
Baccarat	98,68%
<b>TOTAL</b>	<b>94,20%</b>

### Summary of Findings

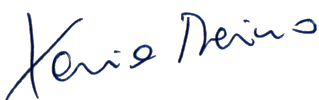

- Most games present **RTP values consistent with fair play**.
- **Deviations** found were mostly in games with **low round counts**, which is expected.

**Game Design and Performance:** Comparing the Observed RTP with the Theoretical RTP, a small number of games showed deviations beyond the expected range. These deviations were generally minor and occurred mostly in games with a low number of rounds, suggesting statistical variance rather than operational issues. **The application of confidence intervals confirms that these deviations are not statistically significant.** Most differences are attributable to low sample sizes or expected variance, particularly in high-volatility games

### Conclusion

Based on the RTP analysis for Q4 2024:

- Compliance with KGC standards has been demonstrated.
- Game Fairness: Most games showed RTPs within expected thresholds.
- Game Performance: Minor deviations do not suggest systemic issues.
